

Concierge Physician Professional Liability Insurance

A Professional Liability Insurance Program Designed Especially For You

As a Concierge Physician, you care for patients who desire the unique professional attention only you can offer: attentive medical care with no rush to move from patient to patient and attention to medical needs in a compassionate and empathetic environment.

The relationship between a Concierge Physician and patient is special, creating a closeness that may not exist in a typical physician/patient relationship. While this may reduce the likelihood of lawsuits, unfortunately no matter how competent and compassionate your services, you can be sued by patients. This is why every Concierge Physician should protect their practice and personal assets with Professional Liability coverage.

Contemporary Insurance Services, Inc. developed a policy to provide top-notch protection of this sort, The Concierge Physician Professional Liability policy.
