Midwives
Professional Liability Insurance

A Professional Liability Program Designed Especially For You

Our malpractice insurance program has provided more than a decade of continuous service to midwives and continued to protect midwives when other companies cancelled programs in the face of large birth trauma claims.

Our defense team includes dedicated birth trauma specialists so our defense attorneys speak your language and understand your concerns.

As a Midwife, you care for women who desire the unique professional attention only you can offer: a natural birthing experience and attention to medical needs in a compassionate and empathetic environment. The relationship between a Midwife and patient is special, creating a closeness and confidence that may not exist in a physician/patient relationship. While this may reduce the likelihood of lawsuits, unfortunately no matter how competent and compassionate your services, you can be sued by patients. This is why every Midwife should protect their practice and personal assets with Professional Liability Insurance coverage. Chartis and Contemporary Insurance Services developed a policy to provide top-notch protection of this sort, The Midwife Professional Liability Policy.

QUALITY COVERAGE PROVIDED BY A HIGHLY RATED COMPANY.
WHY TRUST YOUR PERSONAL ASSETS TO ANYTHING LESS?

What is Midwife Professional Liability Insurance?
Midwife Professional Liability Insurance helps protect against the cost of lawsuits based on the professional services you provide. This policy provides coverage for legal expenses and the monies you are legally obligated to pay to compensate others for loss resulting from your actual or alleged wrongful acts or those of another person for whom you are legally responsible.

Why Midwives Need Professional Liability Insurance.
There are many good reasons why all Midwives should have professional liability insurance.

• You Practice in a Litigious Society
  It’s an unfortunate reality, but we live in a litigious society. Even the most skilled, caring practitioners can find themselves involved in litigation.

• You Must Protect Your Practice and Your Personal Assets
  We all hear the stories of outrageously high jury awards. It doesn’t matter whether the suit is frivolous or not, Professional Liability Insurance will help protect your practice and your personal assets. Your financial future could be endangered if a judgment is rendered against you and you don’t have the right insurance protection. Win or lose, the cost of litigation can be enormous.

• You Should Have Your Own Coverage
  If your coverage is offered through a facility or a physician’s insurance policy, you may not get the same protection and quality of representation that your own policy can provide.
